1. Plug in your Echo Show 5

Plug the power adapter into your Echo Show 5 and then into a power outlet. You will lose the voice control feature while the device is charging. This is an intentional design. The device will not play any audio while charging.

2. Set up your Echo Show 5

Follow the on-screen instructions to set up your Echo Show 5. During setup, you will connect your Echo Show 5 to the Internet and set up Alexa. You will need to consent to the Amazon terms and conditions. To learn more about Alexa, go to help & feedback in the Alexa app or visit www.amazon.com/echo/show5.

Getting started with your Echo Show 5

Interacting with your Echo Show 5
- Squeeze your Echo Show 5 and hold it to press and talk to the Alexa microphone.
- A short press on the Alexa button will turn off the microphone and camera, and the LED will turn red.
- A long press on the Alexa button will voice enable Alexa using the microphone.

To change your settings
- To access settings, move down from the top of the screen in the Alexa app.

Alexa app
- You can access the settings within the Alexa app. You can also get help with your Echo Show 5, as well as play Alexa skills and set reminders. To access Alexa skills and settings, you can also access those settings from your computer browser at https://alexa.amazon.com.

Give us your feedback
- Alexa is continuously learning and improving. We would love to hear about your experiences. Use the feedback feature in the Alexa app or visit www.amazon.com/echo/show5 to provide feedback.
