1. Position your Fire TV Cube

- Place Fire TV Cube 1 to 2 feet away from any speakers, including your TV speakers, with the logo facing where you usually sit.
- This device acts like a remote control. It needs to hear you, and should be unobstructed and face a cleared cabinet.
- (Optional) To connect entertainment components that are inside a cleared cabinet, use the included IR extender cable.

2. Connect your Fire TV Cube

1. Connect one end of the HDMI cable (not included) into the HDMI port on your TV. Connect the other end into the HDMI port on your Fire TV Cube. Then turn on your TV and turn on the Fire TV Cube. Use the included remote to follow the on-screen instructions.
2. (Optional) To use an Ethernet cable (not included), connect the Amazon Ethernet Adapter as shown.
3. Plug the included power cable into Fire TV Cube and then into a power outlet.
4. Turn on your TV, then select the appropriate input.
5. Set your TV volume to your typical listening level.
6. (Optional) To use the IR extender cable, plug it into the IR port on the back of your Fire TV Cube as shown.

3. Power up your Alexa Voice Remote

1. Press and hold the back of the remote and insert the included batteries.
2. After pairing your Alexa Voice Remote, follow the on-screen instructions to control the power and volume of your TV.
3. If your remote is not discovered, press and hold the Power button until the LED lights up quickly.

Tips and troubleshooting

Wi-Fi network
- Using the included remote control, go to the Settings menu in Fire TV Cube and select network from the list displayed.
- If your network is hidden, enter your network name and password.
- If you see a lock icon, your Wi-Fi network requires a password. Ensure you have saved it.
- Amazon account password.
- For best performance, use the 5GHz band on your wireless router if available. Do not place your router in a cabinet as it may impact Wi-Fi signal strength.

Wired network
- If you have trouble with your Ethernet connection, verify that the Ethernet cable and adapter are properly connected, then restart your Fire TV Cube.
